

Well Child Visit

As Valley Health Care our goal is to encourage prevention and early intervention through availability and education. We do this, in part, by providing easy access to healthcare with our School Based Health Clinics. With our SBHCs we also offer Well Child Visits at your child's school. These yearly exams are a check up on your child's growth and development and are encouraged throughout childhood, adolescence, and young adulthood. If your child already has a primary care physician we encourage you to continue with them but if they do not and you are interested in your child having a Well Child Visit at our SBHC please complete the form below.

- Has your child had a well visit in the last year?

Yes _____

No _____

Do you want your child to participate?

If YES check HERE
